## **PROJECTS**

# E-commerce Clothing Store (Next JS)

- Built a complete e-commerce web app with product listings, cart, checkout, and authentication.
- Implemented admin dashboard for product CRUD operations, sales and order management.
- · Implemented database with PostgreSQL.
- Optimized performance and SEO using Next.js and improved speed with Redis caching.

# YouTube Clone (React + Express) ∂

- Developed a fully functional clone with video upload, playback, comments, and likes.
- Integrated admin features for video management (edit/update details) and analytics with line charts for views & subscribers.
- Used React + Tailwind for frontend and MongoDB + express for backend.

# Note-taking App 🔗

- Created a fullstack note-taking application with user authentication.
- Stored and managed data using MongoDB.

#### Personal Portfolio Website 🔗

 Designed and built a responsive developer portfolio showcasing projects and skills.

#### MoodLift (Wellness WebApp) *⊘*

- Developed a mental wellness platform designed to support individuals dealing with depression and anxiety through guided resources and interactive tools.
- Collaborated with a team to build features such as mood tracking, and personalized recommendations.
